Sell Claims Carying Gold to Syndicate Composed of Baltimore Men

CARRIES LOW GRADES

PHOENIX, Nov. 15 .- Under a bond and option, a Baltimore syndicate has taken over the Leviathan Gold Mining and Milling company's property, in the Weaver district, fifteen miles northeast of Congress. Development work is to be inaugurated at once on an extensive scale, and ultimately thousand-ton plant will be erected on the group. The members of the syn-dicate and their engineers will ar-rive in Phoenix within a few days and go out to the property with W. B. Twichell, who engineered the deal,

Most of the Levisthan company's stockholders are Phoenicians. Among the number are A. l. Galpin, A. G.

Hulett and George Golze.

Mr. Twitchell is convinced that the Leviathan is one of the biggest low grade propositions in the state. Although it was discovered a number of years ago and has surface indications of a most remarkable kind, it is comparatively unknown. In years some by it was known as the "Mack Mil-

For twelve years work has been going on in a desultory way. gether about 1000 feet of work has been done. It consists of shafts,

drifts, tunnels and cross-cuts.

There is one promising vein about seven feet wide, carrying values ranging from \$5 to \$10 a ton. The main ore body, however, is 1400 feet wide and three-quarters of a mile long. There is every reason to believe that it is one of the biggest deposits of low grade ore in the world. It granite, altered by thermal action to quartz.

110 5-8 this deposit, and the shaft is all in The values grow better from ore. collar to bottom.

The plan was to sink to the 200foot level and cross-cut the entire ore body from that point, but funds ran low and work was suspended. The new interests intend both to drill and sink on the big ledge. A churn drill will be installed immediately. As soon as it has proved beyond a doubt that the ore body has depth

and is no mere surface deposit, a

thousand ton concentrating and cyaniding plant will be erected. There are fifteen claims in the two groups belonging to the Levisthan company and all are to be thoroughly ex-It is stated that the Leviathan gives much more promise of being a big gold producer than was given by either the Congress or the Octave,

which are in that section. Neither produced a dollar's worth of ore until it had been developed to a depth of over 400 feet. Not Again.

His (who has been punished ser-tral times for malicious mischief, reading on the fire-alarm box, "Break the glass!") -"No, no! You can't fool me!"-Fliegende Blaetter (Munich).
